Praxis II scores are consistently above the national mean, but the national data was not available in 2018-2019. Spanish Language was the exception. Changes in that program now require a clinical experience in a Spanish-speaking country for 5 weeks. This change has resulted in improvement in testing. Social Studies and

Early Childhood have had mixed result with two years above the national average and one year below the national average. Other programs are strong. Programs with few completers are Secondary Mathematics and English Education. 100% of completers meet the test requirements for South Carolina prior to student teaching. In comparison to the state means, scores were just below or just above their state mean scores.

The Principals of Learning and Teaching show mixed results of slightly above or below the state mean. 100% of completers meet the test requirements for South Carolina prior to student teaching.

Pass rates fluctuate due to a few students who take the tests multiple times trying to pass. Spanish Language Test 5195 demonstrates this fluctuation during the first year of the Spanish Education program. Candidates were not prepared to take the Spanish Language test. The n=6 represents 1 candidate who took the test multiple times and never passed. The passing score was from a different candidate who passed after graduation. There were no completers in that cycle. Social Studies (5086) also shows fluctuation due to a few students taking the test multiple times. The phenomenon of multiple attempts is being addressed in each methods course. 18-19 results for social Studies 5086 show some progress as a result of the changes in the Social Studies course work.

All Completers meet the Minimum **GPA requirements for South Carolina**, which is 2.75.

18-19: mean GPA=3.68	17-18: mean GPA=3.67	16-17: mean GPA=3.47	15-16: mean GPA=3.55
